

You're Invited.....

The bi-yearly 2012 Irrigation Exhibition and Conference is being held this month in Adelaide from June 26 to June 28 at the Adelaide Exhibition Centre.

Come and visit us on Stands 53 thru 60.

Visit our stand for the launch of our new SubDrive Solar* which will be happening in Adelaide.

Made to withstand Australia's harsh conditions.

SubDrive Solar is already installed and operating in diverse areas such as Hay NSW, Dubbo NSW, Windsor NSW, Goondiwindi Qld, Geraldton WA, Charters Towers Qld, Lara SA, Roma Qld, Broken Hill NSW and many more locations.

SubDrive Solar utilises Franklin's well proven and quality products:

- Standard 4" pump, standard 4" motor, SubDrive Solar Controller.
- Auto switch to generator

And Observant™ compliant for remote access, start, stop and more.

- Our new 11 kW 4" motor. Now there's power for any pump end.
- Our new full 304SS 6" submersible motors.
- And most importantly our new Training, Service and Education equipment.

Pumps, Motors, Drives and Controls

that offer everyday value that are **'better for your business'**
